# Earth Day 2020

Earth Day takes place every year on the 22<sup>nd</sup> April. It is a day to remind people about how to look after the Earth. It also helps people to learn more about the environment.

## When Did Earth Day First Begin?

It first began in 1970 with 20 million Americans joining in events all over the country. They showed their support to help the environment. Since then, over 192 countries have held events to support the day.

## Earth Day 2020

2020 will be the 50<sup>th</sup> Earth Day and the theme is 'Climate Action'. The aim is to help children and grown-ups to understand how the climate is changing on our planet.

### What Can You Do to Help Stop Climate Change?

Recycle and reuse objects to help reduce waste.

Use our cars less by cycling and walking more often.

Use less electricity and switch off electrical items when you are not using them.

Plant a tree or grow your own fruit or vegetables.

Eat less meat and dairy. You could try to have one plant-based meal a week.

Use less water by having a shower instead of a bath.

# I Can Help the Earth

Think of 4 ways that you can help look after the Earth and draw in the boxes below!

I can help the Earth by...

I can help the Earth by...

I can help the Earth by...

I can help the Earth by...

# Earth Day!

## WORD BOX

- paper and cans
- environment
- Earth
- April
- reduce
- reuse
- recycle
- H<sub>2</sub>O

### ACROSS

1. the planet we live on
5. to use an item again
6. things that can be recycled

### DOWN

1. the world around us in which we live
2. to use an item in another way
3. another name for water
4. to use less or only what you need
7. the month of Earth Day
